

## **CBC 729 - Graduate Seminar Module (1)**

### **Aims and Objectives**

- a. To encourage graduate students to participate in seminars and read scientific literature in the area of synthetic, bio-organic and bio-inorganic chemistry.
- b. To help graduate students to improve their presentation skills

### **Syllabus**

Made up of 3 components:

1. attend at least 14 seminars of which at least 6 are given by visitors or staff members and at least 6 are from CBC 529 Graduate Student Symposium, e.g. 6+8, 7+7, etc
2. deliver a 30-40 min talk in the Graduate Student Symposium
3. Questions and answers on a specified topic (taken from papers published in the past 3 years either in organic, inorganic, bio-organic & bio-inorganic related journals)

### **Assessment**

Presentation skill: 50%  
Question and Answer: 20%  
Knowledge: 30%

### **Prerequisites**

Division approval
