

CBC SEMINAR ANNOUNCEMENT

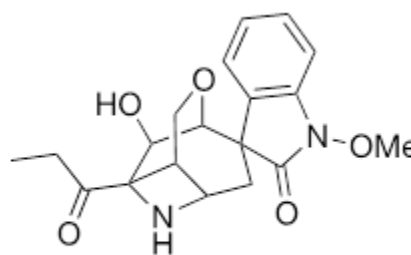

Dr Jun Shimokawa
Nagoya University

Synthetic Studies on Polycyclic Natural Products

Our interests rest in the synthesis of polycyclic natural products and the discovery of new reactivities within the framework of those complex molecules. Among those synthetic targets, I will talk mainly about the synthesis of amathaspiramide A-F and gelsemoxonine. Both natural products could be characterized by the small size and consecutive stereocenters. Details of the syntheses and the interesting reactivity of the synthetic intermediates will be focused.

amathaspiramide A

gelsemoxonine

Date:	15th October 2012 (Monday)
Time:	11:00am – 12:30pm
Venue:	NTU SPMS CBC Building Level 2, Conference Room
Host:	Assoc Professor Shunsuke Chiba
