**Pamela Oon**  
**Chemical Abstracts Service (CAS) – Division of the  
American Chemical Society**

### 7 Things You Never Knew About SciFinder-n.....

- Improve search efficiency with SciFinder-n's relevance ranking
- Locate patent information easily with PatentPak
- Access experimental protocols directly with MethodsNow Synthesis
- Generate new ideas for synthesis using Predictive Retrosynthesis
- And more.....

#### *Biography*

Based in Singapore, Pamela is responsible for providing advance training on SciFinder and STN to customers in Southeast Asia (SEA), Hong Kong and Macau. She is also the technical expert for the regional sales team, promotes CAS new products and understands market needs across multiple disciplines. Pamela has extensive experience as a synthetic and medicinal chemist. Prior to joining CAS, she was a Senior Scientist at GlaxoSmithKline working on neuroscience drug discovery from hit-to-lead to preclinical phase.

Pamela graduated from the Department of Chemistry at National University of Singapore with BSc. (Hons.) and MSc. (Chemistry).
