

COURSE CONTENT FOR PH2900

Academic Year	Any	Semester	Special Term I & II
Course Coordinator	Leek Meng Lee		
Course Code	PH2900		
Course Title	Professional Attachment I (Co-op)		
Pre-requisites	Approval by the Division of Physics & Applied Physics		
Mutually Exclusive	PH4412 PA, PH4416 PA		
No of AUs	5		
Contact Hours	10 weeks		
Proposal Date	16 October 2018		

A. Course Aims

This 10-week Professional Attachment programme is offered as a core course for all **Physics and Applied Physics** (Co-operative Education Program) undergraduate students in Year 1 Special Semester 1 & 2.

The purpose of this Professional Attachment is to enable the application of knowledge and skills you have learned in the university in an authentic work environment. This is such that you can gain relevant exposures and develop practical industry experiences and skills that will facilitate your career decision and future transition into your selected vocation. It allows you to develop professional competencies that will enhance your employability and lifelong learning capabilities to support your career and life endeavours and your readiness for the future of work.

B. Intended Learning Outcomes (ILOs)

At the successful completion of the Professional Attachment, you (as a student) should be able to:

I. Cognitive

1. Apply knowledge and skills relevantly and appropriately in the workplace. [Analyse, model and solve quantitative problems.]
2. Identify your own competency gaps at the internship workplace.
3. Evaluate and develop personal learning and development pathways towards bridging competency gaps identified in point (2) above. [Readily pick up new skills, particularly technology related ones, to tackle new problems.]
4. Develop and apply strategies to solve problems effectively (involves critical thinking and creativity, generating questions, resourcing, application and reiteration).
5. Evaluate resources and develop insights to make informed judgements and recommendations. [Identify relevant knowledge, skills needed to solve problems.]

II. Context

6. Discuss the internship organisation's nature and context of business.
7. Reflect on the organisational culture at the internship organisation.
8. Appraise the significance and impact of the project/work/assignment undertaken at the internship organisation.
9. Describe the career pathways within the internship organisation as well as the broader industry.
10. Reflect on personal and professional development needs within the internship organisation as well as the broader industry and set strategic goals for advancing along an intended career path.

11. Apply time and task management strategies effectively.

III. Relationship

12. Apply effective written and oral communication skills in professional settings when communicating and connecting with relevant stakeholders.

13. Assimilate into the work environment (people, team, hierarchy) and function effectively.

IV. Affective/Moral

14. Tolerate ambiguity and handle anxiety.

15. Contribute proactively to the internship organisation.

16. Demonstrate responsibility, integrity and professionalism in the fulfilment of all workplace and internship requirements.

17. Demonstrate the persistence to learn, overcome and improve.

V. Technical

18. Use tools that enable and facilitate effective project/work/assignment undertaken at the internship organisation.

C. Course Content

This internship programme, being a work-integrated education course, has its educational content embedded within the work environment and assignments that students will undertake at each internship organisation. For this reason, the internship job scope will be evaluated by the course instructor/coordinator using the following criteria:

- a. It is relevant to the student's discipline of study;
- b. It provides the required internship duration;
- c. It accommodates NTU's internship periods;
- d. It caters to NTU's internship duration requirement;
- e. It provides sufficient structure and rigour that will enable students to achieve the intended learning outcomes listed above;
- f. It provides the appropriate workload for the stipulated internship period;
- g. It enhanced the career prospects of the student;
- h. The internship workplace is safe and conducive for student learning and development;
- i. The internship workplace is equipped with the necessary tools and resources for the internship work;
- j. The internship organisation has standing policies to safeguard the welfare of interns;
- k. The internship organisation supervisor possesses the competencies, experience, and commitment to provide guidance to the students;
- l. The internship organisation will use NTU's internship assessment scheme for students.

D. Assessments

This is a Pass/Fail course with the final outcome determined collectively by your Faculty Supervisor and your Organisation Supervisor.

The assessments will be based on the intended learning outcomes (ILO) in section (B) above and you should familiarise yourself with them as they will be your focus throughout the internship.

Your Organisation Supervisor will assess your performance at the internship workplace through an evaluation form "Assessment of Work in the Organisation" (AWO). He/She will complete this evaluation at the end of your internship.

Your Faculty Supervisor will facilitate and assess your learning, development, and growth through your e-journal submissions. The e-journals are where you will reflect on your experience, learning, growth and achievement of the relevant ILOs. Keep the ILOs in mind throughout your experience and undertake or seek challenges in the workplace that will provide you with opportunities to generate experience and evidences regarding your competencies.

Each week, in your journal, you are to record the tasks you have accomplished and the skills you have acquired in the e-journal. Your weekly entry should be between 200 – 500 words. You are to work out a Gantt chart with your supervisors by the end of week 2 and track your progress.

Component	Course ILOs assessed	Graduate Attributes assessed	Weighting	Team / Individual	Assessment Rubrics
Assessment of Work in the Organisation (AWO). This component evaluates your performance at the workplace.	1, 4, 5, 11, 12, 13, 14, 15, 16, 17, 18	Competency 4-6 1-3,7 only for selected internship Creativity Communications Character Civic Mindedness	50	Individual	See Annex 1 for rubric. Assessed by Organisation Supervisor.
e-Journal 1	2,3,6	Competency 4-6 1-3,7 only for selected internship Creativity Communications	10	Individual	See Annex 2 for rubric. Assessed by Faculty Supervisor.
e-Journal 2	1,4,5		10	Individual	See Annex 2 for rubric. Assessed by Faculty Supervisor.
Final Report	7-10, 12		30	Individual	See Annex 3 for rubric. Assessed by Faculty Supervisor.
Total			100%		

Graduate Attributes

Upon the successful completion of the PHY, APHY and PHMA programs, graduates should be able to:

<i>Competency</i>	1	demonstrate a rigorous understanding of the core theories and principles of physics involving (but not limited to) areas such as classical mechanics, electromagnetism, thermal physics and quantum mechanics;
		[PHMA only] demonstrate a rigorous understanding of the core theories and principles of mathematical sciences involving (but not limited to) areas such as analysis, algebra and statistical analysis;
	2	read and understand undergraduate level physics content independently;
	3	make educated guesses / estimations of physical quantities in general;
	4	apply fundamental physics knowledge, logical reasoning, mathematical and computational skills to analyse, model and solve problems;
	5	develop theoretical descriptions of physical phenomena with an understanding of the underlying assumptions and limitations;
	6	critically evaluate and distinguish sources of scientific/non-scientific information and to recommend appropriate decisions and choices when needed;
	7	demonstrate the ability to design and conduct experiments in a Physics laboratory, to make measurements, analyse and interpret data to draw valid conclusions.
<i>Creativity</i>	1	propose valid approaches to tackle open-ended problems in unexplored domains;
	2	offer valid alternative perspectives/approaches to a given situation or problem.
<i>Communication</i>	1	describe physical phenomena with scientifically sound principles;
	2	communicate (in writing and speaking) scientific and non-scientific ideas effectively to professional scientists and to the general public;
	3	communicate effectively with team members when working in a group.
<i>Character</i>	1	uphold absolute integrity when conducting scientific experiments, reporting and using the scientific results;
	2	readily pick up new skills, particularly technology related ones, to tackle new problems;

	3	contribute as a valued team member when working in a group.
<i>Civic Mindedness</i>	1	put together the skills and knowledge into their work in an effective, responsible and ethical manner for the benefits of society.

E. Formative Feedback

Continuous feedback on progress and performance can be expected from student's internship organisation supervisor.

Student's faculty supervisor will also provide feedback through the student's internship e-journal submissions and/or site visits.

F. Learning and Teaching Approach

An internship is an experiential learning programme done in a professional setting. Students will be placed in an organisation for the entire internship period and will undertake work assignments and/or projects in the organisation. It is through such work in the real-world environment where students learn and develop the competencies and experiences relevant to the intended learning outcomes of this course.

Each student will be supervised by (1) an Organisation Supervisor at the internship organisation, and (2) a Faculty Supervisor in NTU.

The Organisation Supervisor will be the key person working with and interacting with the student on a day-to-day basis. The Organisation Supervisor will be one providing guidance and feedback to the student on a regular basis.

The Faculty Supervisor from NTU will serve to facilitate student's learning and progress through interactions via e-journal submissions, email, phone, and/or visits. The Faculty Supervisor will also be each student's first point of contact for any matters arising from the internship. Student can also contact the respective Internship Programme Manager at NTU's Career and Attachment Office as an alternative.

H. Course Policies and Student Responsibilities

Please refer to the respective Professional Internship/Attachment Teamsites via NTU Studentlink for detailed Internship Policy and Procedures.

Further information can be obtained from NTU's Career and Attachment Office (CAO) via cao_internship@ntu.edu.sg.

I. Professional and Academic Integrity

An internship concerns work in a professional setting. As with good academic work, good professional work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of professional and academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values. Refer to this link for details: <http://www.ntu.edu.sg/ai/Pages/shared-values-honour-code.aspx>

As a student, it is important that you recognize your responsibilities in understanding and applying the principles of integrity in all the work you do as a student of NTU. Not knowing what is involved in maintaining integrity does not excuse professional and academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of professional and academic dishonesty, including and not limited to, plagiarism, fraud, collusion and cheating. If you are uncertain of the definitions of any of these terms, you should go to the academic integrity website for more information. Consult your faculty supervisor if you need any clarification about the requirements of professional and academic integrity in the course.

J. Course Instructors

Your Faculty Supervisor for the period of your internship will be allocated to you after the placement process is completed.

This internship course is managed and administered by your school's internship course coordinator as well as NTU's Career & Attachment Office.

K. Planned Weekly Schedule

Your detail internship work schedule will follow that provided by your Internship Organisation with the following check points with your NTU supervisor.

Week	Key Meetings (with NTU supervisors)	Readings/ Activities
1	-	Weekly updating e-Journal / logbook
2	Completion of Gantt chart	
3	Review of e-journal / logbook and performance in first 3 weeks.	
4	-	
5	-	
6	-	
7	Review of e-journal / logbook and performance in first 7 weeks.	
8	-	

9	-	
10	Final e-Journal / Final Report	

This internship course outline template is drafted by:

Ethan Pang, Deputy Director, Career & Attachment Office

Last update: 11 July 2018

Annex 1:

Assessment Rubrics for Assessment of Work in the Organisation (AWO)

Criteria for the assessment of student performance in the internship organisation by the organisation supervisor:

ILOs	Focus	Criteria
1	Knowledge and Skills [Scientific approach to problem solving]	Able to apply knowledge and skills (whether prior or newly learned) appropriately in the workplace and/or projects/tasks. [Able to put together analytical, mathematical and/or computational skills to solve quantitative problems.]
4	Problem-solving	Able to solve problems systematically and effectively.
5	Resourcefulness [Awareness of relevant knowledge, skills needed]	Able to source for relevant information to make informed judgement, decisions and/or recommendations. [Able to handle information critically and propose systematic approaches to handling problems.]
11	Time and Task Management	Able to plan, organise, manage and complete assignments effectively and in a timely manner.
12	Written and Oral Communication	Able to communicate effectively and appropriately in writing and verbally
13	Team Work	Able to function effectively with other colleagues/stakeholders in the work environment.
14	Adaptability	Able to function effectively under ambiguity and/or change.
15	Initiative	Able to remain consistently pro-active towards contributing to the work and/or organisation.
16	Responsibility	Consistently demonstrates commitment, responsibility, integrity, professionalism and ethical behaviour at the workplace.
17	Persistence to Learn and Improve [Particularly technological tools.]	Consistently demonstrates persistence and grit to overcome challenges, to learn and improve continuously at the workplace.

18	Fluency with Tools	Able to use tools, whether software or hardware tools, (and learn new ones where necessary) proficiently to accomplish tasks and assignments.
----	--------------------	---

Annex 2:

Assessment Rubrics for E-Journal 1 and E-Journal 2.

You are required to submit a total of two (2) e-journals and one (1) final report documenting and reflecting on your internship experience in relation to the relevant intended learning outcomes of this course.

The first two (2) e-journals (e-Journal 1 and e-Journal 2) will be assessed in week 3 and week 6 during the internship. These are purposed to be formative assessments where you will receive feedback on your progress.

For each of these e-journal submissions, you are to choose three (3) ILOs from the list provided (see the 10 ILOs in section D above) and present evidences and reflections on each one. The e-journal submission link will be provided to you by CAO:

- Evidences can be provided in the form of text descriptions, photographs, or drawings (ensure you seek clearance from your internship organisation should sensitive information be involved).
- Reflect critically on the evidences and the experience producing them, relating them to how they demonstrated your achievement of the specific ILO (or how they helped you to do so): Particularly but should not be limited to - what were the tasks (or observations) and their contexts, actions taken (or lessons drawn) by you and their reasons, and results achieved? What did you learn (e.g. information, knowledge, skills)? Evaluate your own capabilities and attitude where appropriate.
- E-Journal 2 should focus on another 3 ILOs not already covered in e-Journal 1.
- If you wish to provide further evidences and reflections on ILOs which you have covered in an earlier e-journal submission, you are encouraged to do so. Such new evidence(s) and reflection(s) should demonstrate your development and growth.

Criteria for E-Journal 1 (Week 3)

ILOs	Focus	Criteria
2	Self-awareness and reflection	Able to critically assess one's competency gaps with that required to get the job done.
3	Planning for self-improvement	Able to self-evaluate and develop personal learning and development pathways towards bridging competency gaps identified in point (2) above. [Readily pick up new skills, particularly technology related ones, to tackle new problems.]
6	Understanding relevance of skills	Able to contextualize skills to work requirements

Criteria for E-Journal 2 (Week 6)

ILOs	Focus	Criteria
1	Knowledge and Skills [Scientific approach to problem solving]	Able to apply knowledge and skills (whether prior or newly learned) appropriately in the workplace and/or projects/tasks. [Able to put together analytical, mathematical and/or computational skills to solve quantitative problems.]
4	Problem-solving	Able to solve problems systematically and effectively.
5	Resourcefulness [Awareness of relevant knowledge, skills needed]	Able to source for relevant information to make informed judgement, decisions and/or recommendations. [Able to handle information critically and propose systematic approaches to handling problems.]

Focus	Criteria
Evidence for each ILO	Evidence provided is relevant to and supports the ILO.
Reflection on each ILO	Critical and thoughtful reflection on the experience of achieving the ILO. Clear and concise articulation of thoughts.
Achievement of ILO	Conclusive achievement of ILO.

Annex 3:

Assessment Rubrics for Final Report.

Your Final Report submission will be assessed at the end of your internship.

For this final submission, your focus is to cover the ILOs listed and present evidences and reflections on them. In addition, an overall reflection on your internship experience as a whole is expected:

- Evidences can be in the form of text descriptions, photographs, or drawings (ensure you seek clearance from your internship organisation should sensitive information be involved).
- Reflect critically on the evidences and the experience producing them, relating them to how they demonstrated your achievement of each ILO (or how they helped you to do so): Particularly but should not be limited to - what were the tasks (or observations) and their contexts, actions taken (or lessons drawn) by you and their reasons, and results achieved? How are the achievements validated (by supervisor, colleagues, stakeholders, etc.)? What did you learn (e.g. knowledge, skills)? How will you do things differently and better?
- If you wish to provide further evidences and reflections on ILOs which you have covered in e-Journal 1 and e-Journal 2, you are encouraged to do so. Such new evidence(s) and reflection(s) should demonstrate your development and growth.
- Your overall internship reflection will include but not limited to: Your overall experience in the internship, what are your strengths and weaknesses? Did the experience affirm or revealed them? How will you build up your strengths and reduce your weaknesses? How do you now view this industry and this sort of work? What alternatives will you consider? Knowing what you now know, what are your tentative career plans after graduation? What will you do from this point onwards to put those plans in act?

ILOs	Focus	Criteria
7	Understanding of work environment and culture	Able to observe and understand the organisational culture at the internship organisation.
8	Self-assessment of significance of project in internship organization	Appraise the significance and impact of the project/work/assignment undertaken at the internship organisation.
9	Reflection on Career Options	Able to describe the career pathways within the internship organisation as well as the broader industry.
10	Self-appraisal of developmental needs	Able to relate internship experience to career choices and identify the skills needed for intended career path.
12	Presentation and report writing	Able to organize and present content in a clear and concise manner.

Criteria for Final Report (Oral Presentation and Written Report) submission (30%):

Focus	Criteria
Evidence for each ILO	Evidence provided is relevant to and supports the ILO.
Reflection on each ILO	Critical and thoughtful reflection on the experience of achieving the ILO. Clear and concise articulation of thoughts.
Achievement of ILO	Conclusive achievement of ILO.
Overall Internship Reflection	Clear and critical reflection on the internship experience as a whole.
