5. You are allowed to read higher level courses provided that you have met the pre-requisites and there are vacancies available. Pre-requisites may also be met through exemptions.

6. The locations of the Mathematics Labs are as follow.

Mathematics Lab	Location
COMP LAB 1	SPMS-MAS-03-02
COMP LAB 2	SPMS-MAS-03-03
COMP LAB 3	SPMS-MAS-03-04

7. Prescribed Electives that are not in the prescribed lists (P1 to P4 lists for PMAS, A1 to A5 lists for AMAS, S1 to S3 lists for STAT) can be registered as UE from STARS. To convert it to Major PE, you may send an e-mail request to [SPMSundgrad@ntu.edu.sg](mailto:SPMSundgrad@ntu.edu.sg) by stating clearly your matriculation number, the course code and course type to be converted to **after the add/drop period**.

8. Some of the Major Prescribed Electives offered by other schools may not have any pre-requisites. Nevertheless, students are advised to strongly assess their own background before taking these courses. Students who find themselves to have insufficient background should drop the course before the end of add/drop period. Some of these Major Prescribed Electives have extremely limited vacancies hence they could only be initially registered as UE from STARS. To convert it to Major PE, you may send an e-mail request to [SPMSundgrad@ntu.edu.sg](mailto:SPMSundgrad@ntu.edu.sg) by stating clearly your matriculation number, the course code and course type to be converted to **after the add/drop period**.

9. Students who are interested may apply to take graduate courses as prescribed electives or unrestricted electives. A minimum CGPA of 4.00 is required for the application. Students will be required to fulfill at least 18 AU at Level 4 or higher courses as part of their graduation requirement under Major PE/ UE. Graduate course information may be found from the below website:

<http://spms.ntu.edu.sg/MathematicalSciences/Graduate/Pages/Course-Information.aspx>

These are the graduate courses offered in AY 2020/2021 Semester 1

- MAS711 – Discrete Methods
- MAS714 – Algorithms and Theory of Computing
- MAS728 - Topics in Probability and Statistics II

This application is subject to approval, and no exam timetable clashes between UG and PG course are allowed.

10. Students with Admission Year 2020 who are intending to take up higher level courses whereby the prerequisites are fulfilled through exemptions are to write in to [SPMSUndgrad@ntu.edu.sg](mailto:SPMSUndgrad@ntu.edu.sg).

Exemptions will only be updated after add/drop period and will only be reflected at the end of the semester, together with semester results release.

11. Students who have taken SM2 modules previously and received a minimum of B+ grade in Calculus I and Calculus II respectively will be granted exemptions to MH1100 (Calculus I) and MH1101 (Calculus II) respectively.
12. Students who have taken courses as pre-requisites during exchange programme in the current Semester, please submit your waiver request via the Online Waiver Application using this link: <https://walnut.spms.ntu.edu.sg/waiver/student/default.aspx>. Please upload a copy of the course mapping details and a copy of your exchange transcript (if any) in pdf format in your application.
